區域探索館

Regional Exploration Building

停滿漁船的八斗子漁港旁，有棟與當地密不可分的海洋建築，展廳以「海洋孕育了這塊土地」為主軸，收羅地方記憶、自然美景及產業特色，探訪地方豐厚的海洋文化底蘊。

Located beside the Badouzi Fishing Port, the Building accommodates local memories, natural beauty and industrial features, taking "the land that the sea has nurtured" as the main content. Visit the gallery which is inseparable from the local area and experience the richness of marine culture.

區域探索廳 Regional Exploration Gallery

記錄八斗子的人事物及回憶，透過展示讓歷史畫面得以重現，並以景觀、人文、產業等勾勒出令人讚嘆的自然與人文美景，也是生態旅遊、社區深度導覽的前哨站。

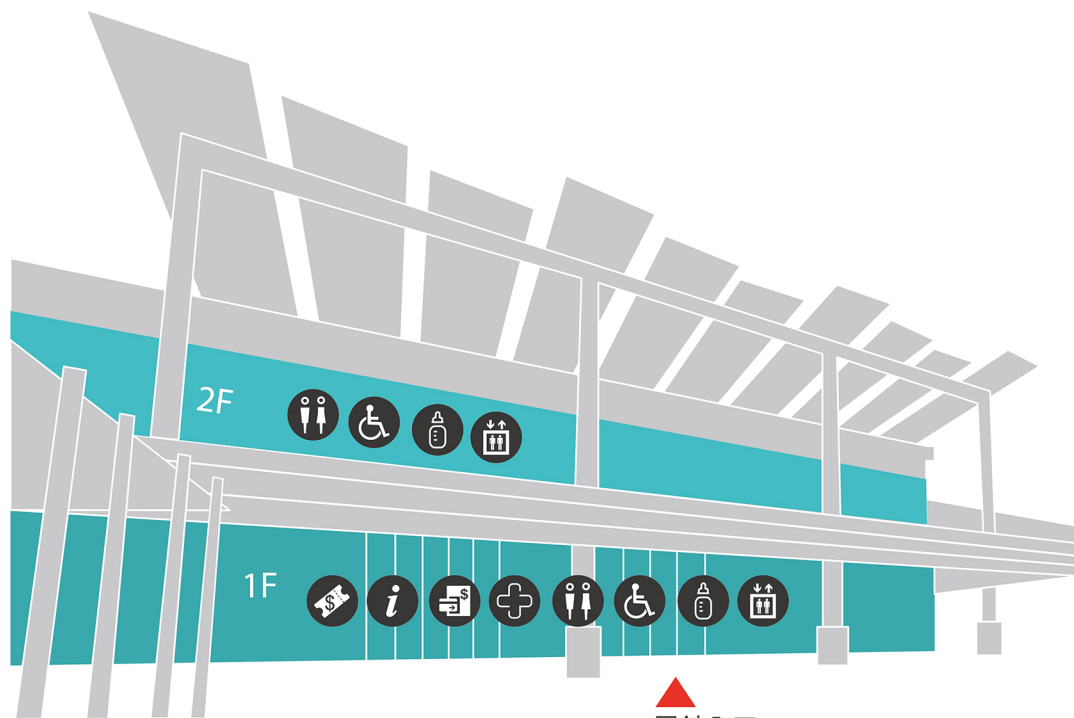

The Gallery records the people and memories of Badouzi and reproduces historical images through exhibition. It also displays the stunning natural and human scenery with landscape, humanities and industries, initiating as an outpost of ecotourism and community-guided tours.

海洋劇場

IMAX Theater

泡泡漂浮海底的劇場，海浪捲起故事的序曲，高約22公尺、寬約29公尺的巨型銀幕，打開你對海洋科學、環境保護、自然生態的廣闊視野，IMAX 3D影片震撼的聲光效果，提供觀眾身歷其境的臨場感。

About 22 meters high, 29 meters wide giant screen, the Theater composed bubbles and waves whole wide, trying to open your broad view of marine science, environmental protection and natural ecology. Shocking effect of the IMAX 3D movie, providing audiences the most immersive experience.

Main Exhibition Building

山海相連，水火相濟，一棟容納海洋知識的建築，還藏著歷史的火力發電廠。跟著海洋、魚群的符號，在展廳中看見科技、環境、文化與海洋的美麗漣漪。

Surrounded by mountains and seas, the Building accommodates marine knowledge, the history of North Thermal Power Plant. Follow the signs of the wave and fish to see the beauty of science and technology, the environment, culture and the oceans in the main exhibition galleries.

深海影像廳(第二特展廳) Deep Sea Theater (2nd Special Exhibition Gallery)

昔日「北部火力發電廠」的鍋爐室蛻變成的影像廳，結合特殊光影及環場音效，穿越過去、未來不同的時空脈絡，體驗一場令人難忘的奇幻旅程。

The Deep Sea Theater, situated in the former boiler room of the North Thermal Power Plant, utilizes its high and wide-ceilinged space to vividly construct an absolutely mesmerizing deep sea journey for its visitors.

海洋環境廳 Marine Environment Gallery

從海岸到海底，多變的地形景觀與環境生態，你瞭解多少呢？靜下心來感受臺灣海洋的獨特、豐富與美麗，凸顯「地質、珊瑚礁、沙地、大洋」整體環境與人的關係。

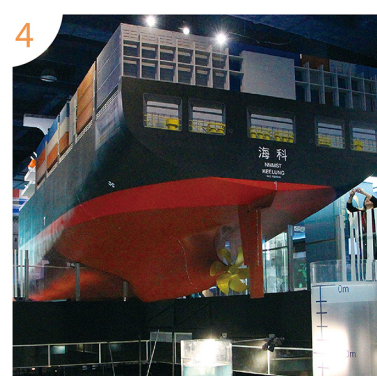

The Gallery exhibits the unique richness and beauty of the oceans surrounding Taiwan, associated the issues of geology, coral reefs, sand and ocean environment with people, asking how well is the surrounding marine environment understood by denizens of this land.

海洋科學廳 Marine Science Gallery

探索海洋的第一步，從親近海洋科學開始。解構地球海洋的內涵與特性，並透過多元互動方式，深入淺出地學習到海洋的科學特性以及海洋科學研究的成果。

The Gallery presents marine science in a lively manner, providing various aspects of the ocean and the aquatic ecosystems. Visitors are given a broad view and interactive ways to acknowledge oceanography and scientific research through the gallery.

船舶與海洋工程廳 Naval Architecture and Ocean Engineering Gallery

大型貨櫃船駛進展廳，激盪出船運與人類生活、經濟發展密切關係，透過互動展項的觀察及操作，瞭解海洋工程、水下技術及現代船舶科技的奧秘。

The Gallery is constructed with large container ships, indicating the important relationships between shipping, human life, and economic development. Through interactive exhibition items, people get to know the mysteries of offshore engineering, underwater technology and modern ship science and technology in Taiwan.

水產廳 Fishery Science Gallery

以水產科學的角度詮釋，漁業如何從魚到漁、從有餘到無魚、從無魚到養魚，水產資源與養殖科技如何「永續」經營，是我們共同努力的目標。

The Gallery teaches how to maintain the limited aquatic resources and understand the aquaculture science and technology. Sustainable management and fishery science are given in the gallery to reach the ultimate goal and protection for extended marine resources.

海洋文化廳 People and the Sea Gallery

以多元視角呈現臺灣島嶼上，人民依海維生、與海相依的生活，讓故事的主角從「海洋」回到「人」，聽聽他們的故事，感受一下他們的生活。

The Gallery exhibits from multi-dimensional perspectives, showing the people living in harmony with the sea. Profoundly captured through the countless of lives and stories of fishermen and leads the attention back from ocean to human.

深海展示廳 Wonders of the Deep Sea Gallery

人類無法抵達的深海，藏著多少驚奇與資源，隨著水下載具共同探勘，認識海底特殊的生態系，在微弱燈光下，揭開深海的神祕面紗。

The Gallery brings you the wonderful exploration of special ecosystem deep in the seafloor, along with underwater vehicles and glimpse the mystery of the deep sea.

兒童廳 Kid's Exploration Zone

童年是一個充滿歡樂與探索的時期，特別為兒童設計一座海洋兒童樂園，從海中賽跑、水滴旅行、小小漁夫等互動遊戲中，讓孩子感受生活與海洋之間的關係。

An exploratory zone allows younger visitors to roam from land, mountain to the wide open sea through interactive facilities. Capturing their fascination with marine education playground, making kids familiarized with the relationship between marine and life.
